Quality Tillage Tools

Quality is an important word at King Kutter. It's who we are. It's what we do. It's the equipment we build. Landscapers, Nursery Owners, Farmers, and Homeowners can get the job done fast, and do a job they can be proud of with Tillage Tools from King Kutter.

Prepare the soil to plant. Make furrows to plant potatoes. Cultivate your sweet corn patch. Loosen compacted soil. Renovate and dethatch pastures. King Kutter's Tillage Tools are the best the industry has to offer for landscapers, contractors, and farmers with large gardens or small acreages. From seedbed preparation to cultivating, we have the tillage tools you need to make sure your garden or small acreage reaches its potential.

8 ft. Drag Harrow

"C" Tine Cultivator

Model shown: CV-G-1-C

King Kutter's "C" Tine Cultivator is a great tool for farmers with small acreages, and large gardens to control weed growth. This tool is ideal for organic farmers who wish to control weeds without the use of chemicals. Reversible points allow you to rotate the points when one side is worn, doubling the life of the points.

Model type:

"C" Tine Cultivator – Cat. I, 3-pt. hitch, heavy duty angle frame, adjustable row widths, spring steel "C" tines, reversible heat treated points.

(Model: CV-G-1C)
